

**PETROFRONTIER CORP. CONFIRMS
RIG MOBILIZATION
TO SOUTHERN GEORGINA BASIN, AUSTRALIA**

Calgary, Alberta – May 30, 2012 (TSX-V: PFC) - PetroFrontier Corp. ("PetroFrontier") is very pleased to announce that Ensign's Rig 918 is currently mobilizing to the MacIntyre-2 well site location in the northeastern corner of EP 127 in the Southern Georgina Basin, Northern Territory. It is expected that the Ensign drilling equipment will be onsite by early June 2012 and that the Southern Georgina Basin operational activities will resume during the week of June 4, 2012.

This first phase of the 2012 capital program will focus on the drilling of the horizontal leg at MacIntyre-2, which is expected to take approximately two weeks. Once the drilling is completed, PetroFrontier will have earned a 75% working interest and operatorship in EP 127.

After drilling MacIntyre-2H, the Ensign rig will re-locate approximately 300 km to the eastern border of EP 104 to drill a high angle pilot hole at the third location, Owen-3 in EP 104 (100% working interest) and if PetroFrontier considers conditions to be favorable, a subsequent horizontal section at that same location. Mobilization of Ensign Rig 918 to the Owen -3 well site is anticipated to take one week, with the expected drilling timeline for the vertical and horizontal sections at Owen-3H being approximately four weeks.

Subsequent to this drilling activity, the second phase of the 2012 capital program will commence with the mobilization of a coil tubing unit and service rig for the completion, fracturing and flow testing of Baldwin-2Hst1 (EP 103), MacIntyre-2H (EP 127) and Owen-3H (EP 104), in that order. Both the Baldwin-2Hst1 and the MacIntyre-2 wells encountered very encouraging hydrocarbon responses while they were being drilled in the latter part of 2011. This type of unconventional oil play requires the use of advanced horizontal drilling and completion techniques to be economic, and the use of proven North American technologies is expected to give PetroFrontier a good chance of establishing commercial production.

About PetroFrontier Corp.

PetroFrontier is an international oil and gas company engaged in the exploration, acquisition and development of both conventional and unconventional onshore petroleum assets in Australia's Southern Georgina Basin. PetroFrontier's common shares are listed on the TSX Venture Exchange under the symbol "PFC". Founded in 2009, PetroFrontier is one of the first companies to undertake onshore exploration in the Southern Georgina Basin in Australia's Northern Territory. PetroFrontier's head office is based in Calgary, Alberta and operations office is in Adelaide, South Australia.

Forward-Looking Statements

This press release may contain forward-looking information that involves substantial known and unknown risks and uncertainties, most of which are beyond the control of PetroFrontier, including, without limitation, statements pertaining to management's future plans and operations.
