

**PETROFRONTIER ANNOUNCES 2017 ANNUAL
FINANCIAL AND OPERATING RESULTS AND
YEAR-END RESERVES EVALUATION**

Calgary, Alberta, April 30, 2018 - PetroFrontier Corp. (“PetroFrontier” or the “Company”) (TSX-V: PFC) is pleased to announce its financial and operating results for the twelve months ended December 31, 2017 and the results of its 2017 year-end reserves evaluation.

2017 HIGHLIGHTS

- Total proved (“TP”) reserves of heavy oil were 3.85 million barrels (a 3% decrease from the 2016 evaluation of 3.97 million barrels).
- The net present value of future net revenues discounted at 10% (“PV10”) before taxes of the Company’s TP reserves was \$40.1 million (a 19% decrease from the 2016 evaluation of \$49.6 million). This TP value equates to \$0.27 per common share.
- Total proved plus probable (“P+P”) reserves of heavy oil were 8.76 million barrels (a decrease of less than 1% from the 2016 evaluation of 8.82 million barrels).
- The PV10 value before taxes of the Company’s P+P reserves was \$100.1 million (a 15% decrease from the 2016 evaluation of \$117.6 million). This P+P value equates to \$0.67 per common share.
- Production accounted for all the decrease in TP and P+P reserves, the main cause of the decline in the NPV10 value before taxes of the Company’s TP and P+P reserves is the lower price deck compared with last year’s reserves evaluation report.
- At year-end, a total of 12 wells were on production, up from 5 wells when the Properties were acquired.

FINANCIAL AND OPERATING RESULTS

Selected financial and operational information is outlined below and should be read in conjunction with the audited financial statements and the related management’s, discussion and analysis (“MD&A”). These filings will be available at www.sedar.com and the Company’s website at www.petrofrontier.com.

Financial

Net comprehensive loss	\$1,761,506	\$709,685
Per common share (basic and diluted)	\$0.01	\$0.01
Working capital (deficiency)	(\$3,814,066)	\$2,131,682
Total assets	\$21,692,634	\$22,695,432

Total long-term liabilities	\$3,549,422	\$5,832,030
Shareholders' equity	\$13,218,706	\$14,826,359

Production

PetroFrontier's 2017 petroleum sales volumes averaged 373 barrels ("bbls") per producing day (for a total of 136,307 bbls), an increase of 151% compared to the 247 bbls per producing day averaged in 2016.

Operating Netback

The following table details the Company's operating netback for the twelve months ended December 31, 2017.

—		<u>Per bbls</u>
Production (bbls)	136,307	
Average daily production (bbls/d)	373	
Petroleum revenue	\$5,368,064	\$39.38
Royalties	\$431,649	\$3.17
Production costs ⁽¹⁾	\$3,046,426	\$22.35
Operating netback ⁽²⁾	\$1,889,989	\$13.87

(1) Excludes annual lease rentals of \$208,079 related to non-producing lands.

(2) The term "operating netback" is a non-GAAP measure. This term does not have a standardized meaning prescribed by GAAP and, therefore, may not be comparable to similar measures used by other companies in the oil and gas industry.

The Company's focus on reducing costs with a significant proportion of fixed costs having to be spread over a small production base, resulted in an 11% reduction in production costs per bbl compared to the same period in 2016.

OIL AND GAS RESERVES EVALUATION

Boury Global Energy Consultants Ltd. (independent petroleum consultants, of Calgary, Alberta) has prepared a report dated April 18, 2018 (the "Reserve Report") in which it has evaluated, as at December 31, 2017, the oil and natural gas reserves attributable to the principal properties of PetroFrontier.

The Reserve Report also presents the estimated net value of future revenue of PetroFrontier's properties before and after taxes, at various discount rates. Assumptions and qualifications relating to costs, prices for future production and other matters are summarized in the notes to the following tables.

The following tables summarize certain information contained in the Reserve Report. The definitions of the various categories of reserves and expenditures are those set out in National Instrument 51-101 *Standards of Disclosure for Oil and Gas Activities* ("NI 51-101"). It should not be assumed that the net present value of reserves used in the Reserve Report represents the fair market value of these reserves.

Summary of Oil and Gas Reserves

The following table discloses, in the aggregate, PetroFrontier's gross and net proved reserves, estimated using forecast prices and costs, by product type. "Forecast prices and costs" means future prices and costs used in the Reserve Report that are generally accepted as being a reasonable outlook of the future, or fixed or currently determinable future prices or costs to which the Company is bound.

CREDIT FACILITY

On April 27, 2018, the Corporation signed a term sheet (the “Term Sheet”) with a corporation controlled by a director (the “Lender”), which will provide for a credit facility not exceeding \$1,500,000. The advances under the credit facility will bear interest at 8% per annum payable monthly and are secured by a General Security Agreement with the minimum advance being \$500,000. The Lender will also be paid a structuring fee equal to 2% of the amount of any advance under the credit facility, with a minimum structuring fee of \$10,000 payable.

The Lender will have the option to convert the advances under the credit facility into common shares of the Corporation (“Common Shares”). The conversion price per Common Share shall be: (i) the greater of the closing price of the Common Shares on the TSX Venture Exchange on the day prior to the issuance of this press release (the “Market Price”) and \$0.05 for the first year of the term of the loan; and (ii) the greater of the Market Price and \$0.10 for the second year of the term of the loan.

Finalization of the credit facility agreement (which is subject to regulatory approval) is expected to close on April 30, 2018. The credit facility will mature two years from the date of the Term Sheet. Proceeds from the credit facility will be used for working capital purposes and capital expenditures.

RETIREMENT OF CHIEF EXECUTIVE OFFICER

Robert J. Iverach has announced that he will be stepping down as Chief Executive Officer on April 30, 2018. Mr. Iverach will remain on the Board of Directors and continue as Chairman of the Board. The Board of Directors wishes to thank Mr. Iverach for his efforts while serving as Chief Executive Officer and look forward to his continuing contribution in his role as Chairman.

Kelly Kimbley, currently President, will become both Chief Executive Officer and President.
